Experience.

Co-Founder and Project Lead
Develop Kreativity
November 2023 - Present

I lead the design and development of several projects, creating platforms that meet client needs and transforming their concepts into tangible results.

Full-Stack Developer (Working Scholar)
Information and Communications Technology Department at University of Southern Philippines Foundation
June 2023 - Present

I collaborate in the development of several web system applications for the university and its stakeholders, including an AI/ML chatbot called Augi and the USPF Digital app, as well as enhancements to existing web system applications.

Back-End Developer
MyToolz.net
July 2021 - December 2021 (6 months)

I contributed to the design and development of several web tools, including account checkers and content generators, as well as the enhancement of back-end and API infrastructures, improving service speed and the user experience.

Education.

2022 - Present
Bachelor of Science in Computer Science
University of Southern Philippines Foundation

2020 - 2022
Science, Technology, Engineering, and Mathematics
Dumalag Central National High School
